

- ***AG Demenz = Working group on Dementia***

People with **dementia** from conditions such as Alzheimer's and related diseases have a progressive biological brain disorder that makes it more and more difficult for them to remember things, think clearly, communicate with others, and take **care** of themselves. The working group on dementia is dealing with the concerns of dementia patients and their relatives in the area of the northern Bergstraße. Experts including representatives of church communities, the district of Darmstadt-Dieburg as well as outpatient and inpatient nursing institutions, relatives and other committed citizens meet regularly at intervals of about two months in the Gemeindehaus of the Protestant Parish of Alsbach, Bickenbacher Straße 27.

We, search for people with isolation and congestion.

- encourage and network local support services.
- initiate public discussion and give background information on dementia.
- organize events based on these themes.
