

- **Fundraising**

"Enlighten a candle in your heart"

Fundraising is often equated with collecting donations. But Fundraising is much more than advertising for money. Fundraising instills a systematic and sustainable enthusiasm to embark on a relationship with work or you could say it's about lighting a candle in the hearts of the people.

Therefore Fundraising in the Evangelische Dekanat Bergstraße has the following objectives:

- **to inspire people for the church**
- **to let people participate in the church**
- **to integrate people into the community of the Church**
- **to pave new ways for the engagement of people**
- **to win people to support the parish work**
- **to teach people the joy of giving in a gentle way.**

Therefore it is about people and not money!

Fundraising employs a plethora of different concepts and ways when merged with the parish norms produce novel thoughts into parishioners' day to day activities. The intention of this activity not only involves a financial base for youth work or money for the restoration of the organ but also a subsidy for the renovation of the village church. But it's purpose has much more gravity and diversity. Fundraising creates new contacts and also deepens existing contacts with the parish. It opens up opportunities for the people to engage themselves in the Church. In this way, fundraising can make an important contribution to enliven the parish life even to the future.
