

- **Social Responsibility**

Before God and humans we stand for a social development, which is socially just and ecologically compatible.

That means: not to remain silent, when something unfair happens. Ask questions and make plans together with others.

How do we want to live in twenty years? Why are people no longer able to live from their work? Does it have to be that way? What happens to my village when all the young people move away? How do we save the society when the debate over wind turbines heats up people's spirits? What can we do to help refugees and asylum seekers in our region?

Which questions do you have? We invite you to get involved and help to shape the change.

We support Church parishes, local communities, associations and initiatives in the region to let themselves be moved by these issues. We trust in the transforming power of the gospel of Jesus Christ and believe that all humans are invited to become part of this movement. The office is associated with the Center for Social Responsibility of the EKHN, which is located in Mainz.
